TITLE	Data Acquisition Plan, 1988-89.
INSTITUTION	Connecticut State Board of Education, Hartford.
PUB DATE	88
NOTE	97p.; For the 1987-88 plan, see ED 288 552.
PUB TYPE	Reference Materials - Directories/Catalogs (132)
EDRS PRICE	MF01/PC04 Plus Postage.
DESCRIPTORS	*Data Collection; *Educational Administration; Educational Assessment; *Educational Planning; *Records (Forms); School Districts; *State Departments of Education; Superintendents; Tables (Data)
IDENTIFIERS	*Connecticut State Department of Education; Paperwork Reduction

ABSTRACT

Designed as a concerted effort to control the paperwork and reduce the number of data collection reports required by the Connecticut State Department of Education, this report lists the forms the department will use in the 1988-89 school year to collect data on the condition and the progress of education in Connecticut. An introductory section describes the results of coordinating data collection, provides an assessment of reporting requirements, and includes explanatory notes for the tables in the report. The report itself is divided into four parts: (1) a listing of Department of Education forms grouped as follows: forms required of all superintendents this school year, forms required on a schedule longer than one year, forms required of some superintendents as needed, and forms required of other respondents; (2) a listing of the forms required of local school districts by agencies other than the State Department of Education; (3) a numerical listing of all forms required of local school districts, including all forms listed in Parts 1 and 2; and (4) a September to August calendar, listing forms according to their due dates. Each list includes the state due date, local contact person, form type, need, form number, form name and justification, state contact person, and telephone number. (CGD)

FOREWORD

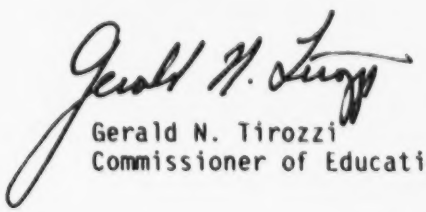
The Connecticut State Department of Education is pleased once again to distribute its annual *Data Acquisition Plan*. The current publication is the twelfth edition of this reference tool. As with earlier editions, the *Data Acquisition Plan 1988-1989* lists the forms that the State Department of Education will use in the coming school year to collect data on the condition and the progress of education in Connecticut.

I continue to be concerned about easing the paperwork burden on administrators and teachers. I pledge renewed support for gathering data from school systems in a way which minimizes the paperwork and maximizes the time for teaching and learning.

In testimony to our past efforts we note that there are now 56 fewer forms than there were when this publication was first issued 11 years ago. There has been some increase the last three years, principally for two reasons: (1) some forms were required to calculate and audit new state and federal grants, and (2) other forms were added as variants of existing forms, tailored for specific audiences or programs.

In our annual review of all department forms we are continually trying to improve their design so they can be more speedily and accurately completed by respondents and analyzed by department staff. We expect continued success in our efforts to minimize the paperwork required of Connecticut school districts.

Finally, I wish to express my thanks to local school staff who respond to our requests for data. The collection of accurate and timely data is an important part of public education; only with these data can we give Connecticut's citizens meaningful information about our public schools.



Gerald N. Tirozzi
Commissioner of Education

The *Data Acquisition Plan 1988-1989* has four parts:

- o Part I: Listing of Department of Education Forms
- o Part II: Listing of Other Agency Forms
- o Part III: Numerical Index of Forms
- o Part IV: Monthly Calendar of Forms

Part I lists Department of Education forms grouped as follows:

A forms required of *all* superintendents this school year;
B forms required on a schedule longer than one year;
C forms required of *some* superintendents *as needed*; and
D forms required of *other respondents*.

Part II lists the forms required of local school districts by agencies other than the State Department of Education.

Part III presents a numerical listing of all forms required of local school districts. It includes all forms listed in Parts I and II, even biennial/triennial forms not due this school year.

Finally, Part IV provides a September to August calendar, listing forms according to their due dates.

The preparation of the *Data Acquisition Plan* is supported by the work of the State Department of Education Forms Review Committee which annually reviews and approves all department forms. Because of this committee's diligent efforts this publication can be updated each month. In addition, the department recognizes the continuing assistance of the CASA/CASBO* Data Reports Committee. Together with this group, the Department of Education has prepared a brochure, *Data Collection Procedures Relating to Public Elementary and Secondary Institutions of Education in Connecticut*, which outlines the procedures to be followed in soliciting information from education agencies. Copies are available on request.

Ways to consolidate forms and to make reporting procedures more efficient are continually under consideration. Questions or suggestions concerning forms or data acquisition matters should be directed to Pascal D. Forgione, Jr., Chief, Office of Research and Evaluation (203-566-3577), or Thomas F. Breen III, Data Collection and Analysis Unit (203-566-1685).

* Connecticut Association of School Administrators/Connecticut Association of School Business Officials.

COORDINATING DATA COLLECTION

The annual *Data Acquisition Plan* represents a coordinated effort by the State Department of Education to control the size and number of data collection reports required of local school district personnel. Codifying forms in the *Data Acquisition Plan* has made it possible to eliminate unnecessary and duplicate data requests and to consolidate requests on fewer forms.

The success of this process can be gauged from the decline in the number of forms required in the past ten years. Even with new forms necessitated by new state and federal initiatives and more precise accounting and auditing procedures, there has been an overall reduction of some 56 official department forms included in the plan. In addition, using the plan as a control mechanism, and with the assistance of the CASA/CASBO Data Reports Committee, unofficial forms have been virtually eliminated.

During the past year all existing department data collection forms were reviewed by the Forms Review Committee. With the assistance of the CASA/CASBO Data Reports Committee they also reviewed any proposed new forms. Federal and state legislation caused some revisions and new forms.

This year's *Data Acquisition Plan* contains 17 more education forms than last year's; 20 have been added and three have been eliminated. Besides seven new ED forms, this year's plan includes 13 other department forms not previously included. The seven new ED forms are:

ED-031	Teacher Allocation Report
ED-200	Plan for Gifted and Talented Programs
ED-217	Application for Preschool Handicapped Entitlement Grant
ED-340	Certification Form for Handicapped Students in Vocational Education
ED-452	Debt Service Claim Form
ED-512	Application for Early Childhood Network Grant
ED-514	Application for Integrating Preschool Handicapped and Nonhandicapped Children

The 13 other forms not previously listed include four required of private occupational schools:

BAE-001	Out-of-State Private Occupational Schools: School Information for Permit
BAE-002	Out-of-State Private Occupational Schools: Representative Information
BAE-003	Out-of-State Private Occupational Schools: Receipts Deposit
BAE-004	Quarterly Payment Form for the Private Occupational School Student Protection Fund

Three are general data collection forms:

FRC-003	Letter of Financial Commitment and Responsibility
FRC-004	Application for Birth to Three Continuation Grant
FRC-009	Fall Vocational Program Report

Six are reports used to verify numbers reported through the Integrated Special Student Information System (ISSIS):

ORE-100S	Pupil Counts for Funding under PL 94-142
ORE-502	Students Identified or Receiving Education, by Site Location
ORE-680	Excess Cost Grant Placements
ORE-690	Students Placed Out by a State Agency Who Require Special Education
ORE-691	State Agency Placements, Residential Special Education in the School District
ORE-692	Students Requiring Education Only, State Agency in Private Residential Facility

There are five department forms that are collected on an other than annual schedule. This year the ED-148, the Graduating Class Report, and the ED-151, the EERA Biennial Report, are required. The ED-149, the Curriculum Survey; the ED-150, Teacher Evaluation Triennial Report; and the ED-511, Local Education Goals Report (which is collected every five years) are not required in 1988-89.

The task of reducing paperwork for school districts is not under the complete control of the State Department of Education. Part II of this report lists 32 forms that other government agencies (state and federal) require of local school districts and over which the department has only minimal jurisdiction. This listing includes the Teachers' Retirement Board forms and the application for federal impact aid.

Assessment of Reporting Requirements

Although there are 156 forms listed, only a fraction of these are filled out by the superintendent of schools. An important measure of the effectiveness of the department's efforts is the reduction to an absolute minimum of the burden placed on the superintendent of schools. The following breakdown provides a more complete description of the reporting requirements placed on Connecticut school districts by types of forms required.

- Of the 156 forms, 38 are completed by individuals other than the superintendent and they relate to activities such as child nutrition, adult education and nonpublic educational programs. (These forms are listed in Part I-D of this report, pp. 12-13.)

- Of the remaining 118 forms, 68 are special purpose forms used only for discretionary programs for which districts choose to apply, such as School Facilities, State Grants, Federal Grants, Compensatory Education, Teacher Certification, Vocational Education and so on. (These special purpose forms are listed in Part I-C, pp. 9-11.)

- Of the remaining 50 forms, three are multiple-year reports (of the five listed in Part I-B, p. 8) which are *not* required in 1988-89. Only the ED-148 and the ED-151 are due this year.

- Just 47 forms (which are listed in Part I-A, pp. 6-7 and Part I-B, p. 8) are required of all districts this year. Most are used solely for monitoring state and federal grants. These include federal and state child nutrition forms, federal grant forms (compensatory education, vocational education, and adult education), state grant forms, and state/federal compliance forms.

- The department uses ten forms to collect the core data it needs to report to the General Assembly and public each year on the condition of education in Connecticut. Specifically, these forms incorporate the major statistical data collection burden required of local school districts by the State Department of Education. These are:

ED-001	End of Year School Report (financial)
ED-025	Pupil Data Report
ED-148	Graduating Class Report (biennial)
ED-149	Curriculum Survey (five-year cycle)
ED-151	Education Evaluation and Remedial Assistance Biennial Report (biennial)
ED-152	Racial Survey
ED-158	Graduate Follow-Up Report
ED-331	Special Student Registration Record
ED-400A,B	Vocational Education Enrollment and Completion Report
ED-404	Placement of Program Completers Report

Explanatory Notes

The table headings in this report are defined as follows:

- "*Ref #*" (for Parts IA, B, C only) is a sequential count for State Department of Education use only.

- "*Date Due State*" gives the month and the day the form is due at the state agency. The letters "M," "Q", "S," and "T"

following the form due date indicate that the form is due monthly, quarterly, semiannually (January and July), or twice a year (October and May), respectively. A due date "AsReq" indicates that the form is used only as required. The letter "E" indicates a due date estimated at this time; the actual due date depends on federal release dates.

- "*Local Contact Person*" is the person at the local level responsible for submitting the form. The following abbreviations are used: "Sup't" for Superintendent; "Sponsr" for Sponsor; "Dirctr" for Director; "FdSMC" for Food Service Management Company; "Prncpl" for Principal; "Teachr" for Teachers; "Studnt" for Students; "Coordr" for Coordinator; "Aplcnt" for Applicant; "BdEduc" for Board of Education; and "Admin" for Administrator.

- "*Form Type*" (for Parts II, III and IV only) groups each form in one of the following types:

  Type "A" State Department of Education (SDE) forms which are to be submitted by all superintendents this year. Form titles for "Type A" forms are printed in capital letters in this report.

  Type "B" SDE forms which are submitted annually by a minority of superintendents on specified due dates or as required.

  Type "C" SDE forms which are submitted by respondents other than the superintendent.

  Type "D" Forms which are distributed by agencies other than the State Department of Education to collect school district data.

  Type "E" Forms which are submitted biennially or as required.

- "*Need*" identifies the primary use of the form: "S" - State; "F" - Federal; and "B" - both State and Federal.

- "*Form Number*" is a letter and number combination given at the top of the form which identifies the source and number of the form. For example, forms authorized for distribution by the Department of Education have the designation, ED, followed by a three-digit number, e.g., ED-001.

- "*Form Name: Justification*" gives the title of the form and the federal or state statute which requires its use. State statutes are listed as "GS" or "PA" and federal statutes as "PL" or "FR." Words in the title are often contracted, e.g., STATMT for Statement; CHLDN for Children.
